RON WRIGHT'S SPORT COLUMN:

The Jefferson Union High Football team won over South San Francisco last weekend, by a score of 14 to 13. The game was under protest--because someone had been tampering with the clock. At the half, South San Francisco was leading 13 to 0. I don't know what Coach South said to the boys, but they came out like a new team. With two minutes to play--and the score 13 to 7--Don Espinoza threw a pass to Jack Wilson and Jack went for a touchdown. The kick was good, and the final score came up 14 to 13.

The Jefferson Fresh-Soph football team won over San Jose by the score of 27 to 13 recently. The Jeff boys seemed to be pushing the San Jose team all over the field. The only scores by San Jose were on passes that went to a tall "end". The most outstanding player on the field in Tuesday's game was Joe Tescowitz--left end. This boy is 15 years old and weighs 167 pounds--and is six feet four inches tall. I think a few more years of football and he'll be as good as Bill McCall will ever be. Joe can already pass and kick further than any other player on the teams--including the varsity.

That's all for this week. See you next time.

PENINSULA HOME BUILDING PINCHED
BACK BY RULING:

Peninsula home construction already is feeling the effects of Regulation X, a recent government ruling requiring larger cash down payments on homes. Applications submitted by contractors to the Burlingame FHA office asking loan commitments totaled 310 last week, as compared to a normal pre-regulation week load of 750, according to Perry Bygdnes, president of the Peninsula General Contractors and Builders Association. The regulation was designed to cut new home construction from its record-high estimated 1,400,000 units this year.

GOOFY GOSSIP:

The street gossip is that there are a number of people who are not in favor of under or over-pass for Brisbane. We note from the "Letters to the Editor" column in the most recent issue of the News-Bulletin that a local resident says "we can count her out". Well, that is Democracy at it's best! However, we believe that if people were properly confronted with all the facts, they would change their opinion. The writer was not fully informed. The question of under or over-pass for Brisbane has not been settled, as so many people seem to think. We note from a recent issue of the Burlingame Advance that San Mateo citizens have succeeded in getting their over-pass at Third Avenue and Bayshore Highway. That took cooperation. As an example of the lack of it--a man who lives up on the hillside near the water-pumps made this remark; "I have plenty of water--why should I worry about the other fellow? There are always some who want to live in their own private atmosphere, and forget there are others in the world besides themselves. Let's see how many people an under or over-pass WOULD benefit--- There are approximately 5000 people in Brisbane. There are approximately 600 automobile owners here, and most of them use their cars to get back and forth to work. There is another side to this picture also---what does our entrance look like NOW?---a filthy pool of stagnant water which breeds mosquitos, disease, and an unhealthy stench offending the nostrils of the commuters passing by. Do we want this thing left as it is? Or would we rather have a beautiful building housing a light industry--such as Western Crown Cork & Seal, or the Rough-Riders plant in South City? Many others in the same category would consider our town a good building site--or nearby, anyway. Think what that would mean to our local payroll, and to the taxable properties for future incorporation of Brisbane. With a six-lane highway, it would not improve our situation any. It would leave us worse off than we are now. THINK! THINK! THINK these things over!

THE CHRISTMAS SPIRIT is in the air--and our hearts turn to the spirit of giving. Let's all support the Christmas Program sponsored by the local clubs, organizations and merchants. Let's support it 100 %. Let's keep the Spirit of Christmas and Democracy alive forever!

SO LONG UNTIL NEXT TIME. THINK OVER WHAT I'VE SAID HERE TODAY. IT IS IMPORTANT TO YOU AS A CITIZEN OF BRISBANE.

LETTERS FROM OUR SERVICEMEN:

Dear Mrs. Reece:

I am receiving the paper regularly and I want to take this opportunity to thank you. You don't know how much it means to me to be able to read your paper each week. I really enjoy it, and it is good to know that people back home haven't forgotten about us. I'm truly sorry that I didn't write sooner than this--but since things have slackened up here in Korea, the work has really been coming in.

As for my address--it's FEAMCOM. Feamcom stands for FAR EASTERN AIR MATERIAL COMMAND. This base is about 23 miles south of Tokyo, and is one of the key supply stations.

Yes, I do correspond with most of my friends now in the SERVICES. But if I ever want to keep in contact with anyone else, I will keep you in mind.

Well, that's about all--thank-you again for your time and trouble in sending me the BYLINE.

Sincerely yours,

ART HUTCHINSON.

(ED'S NOTE: If anyone would like Art's address so that they may write to him, please get in touch with me--JU 5-7141, during the day.)

CHRISTMAS GIFT SUGGESTION:

Why not drop into the Legion Hall on December 1st or 2nd, and look over the fine supply of gift suggestions on sale at the American Legion Auxiliary Bazaar. There will be many lovely handmade articles, ceramics, pot holders, and so forth. All items are reasonable and varied. Why suffer the aching feet and high prices of city shopping this year???

"BLACKIE" COMES HOME:

Remember the ad we ran 'way back in August which ran, LOST: TWO CATS--etc. etc.? One of the cats returned to it's home in San Francisco a week later. Then a hunt was started for "BLACKIE"--who was still lost, and roaming the streets of Brisbane. His owner, Miss M.L.Hartman, of 159 Byxbee Street, San Francisco, had been visiting friends out here, and her two cats had strayed away from her car. On Wednesday morning of this week, I received a telephone call from Miss Hartman. BLACKIE had come home--footsore and wazy--half starved, and with a swollen leg. It took him three months to get home, but he made it! If BLACKIE could talk--what adventures he could tell us! WHO SAID "DUMB" ANIMALS?????

On our "day off", too--when we had to go down for more supplies in order to get out this week's issue of the BYLINE. We had to call up a "pal" of ours to tow us all the way back to Brisbane. BRISBANE COMMUNITY BETTERMENT MEETING:

This letter is addressed to the people in Brisbane who are interested in seeing our community become one which far more favorably compares with the natural beauty of it's setting. IN HAVING OUR STREETS AND SIDEWALKS IMPROVED??? IN GETTING SOMETHING DONE ABOUT THE GUTTERS??? IN PROMOTING A COMMUNITY SPIRIT AMONGST YOUR NEIGHBORS??

Then you should be at the next scheduled meeting to be held at the AMERICAN LEGION HALL on Visitation Avenue, on Monday evening, December 4th, at 8 p.m.

S.F. NAVAL SHIPYARD CELEBRATES BIRTHDAY:

The San Francisco Naval Shipyard--(Hunter's Point)--will observe its eighth birthday this week, with a reception held at 6 p.m. on Thursday in the Commissioned Officers Mess. Attending was ranking military officers of the entire Bay area and civilian guests.

PUZZLING HEADLINES:

I see by Thursday's Examiner--there is a small bit entitled "DEATH TAKES A HOLIDAY"--and then it goes on to tell of a community of 8,464 people which has had no deaths since November 21st--the longest period on record. It seems to me that if a community that small can't go two weeks without a death--it must be a dangerous place to live in!
